E-08009 Barcelona – SPAIN

Preprints/Proceedings

All accepted manuscripts will be collected and published in one volume and be available for distribution to all Symposium participants at the beginning of the meeting.

Official Language

English will be the official language of the Symposium.

Demonstrations on Computers

A number of facilities will be available at the Symposium for software demonstration. Interested participants are invited to inform the organizers about their contributions **by April 1991.** Further details will be worked out on the basis of requests received and will be communicated by June 1991.

Also arranged will be **Technical Visits** and **Social Programme.**

ORGANIZING COMMITTEE

J. Malagelada (Chairman)
P. Miró
L. Puigjaner (co-Chairman)
R. Garriga
P. Aguirre
J. A. Escudero

SCIENTIFIC COMMITTEE

L. Puigjaner (E) – (Chairman)
J. Aittamaa (SF)
G. Buzzi-Ferraris (I)
H. Th. Bussemaker (NL)
D. Depeyre (F)
A. Espuña (E)
R. Gani (DK)
U. Gren (S)
T. Hertzberg (N)
H. Hoffmann (FRG)
M. Jarvelainen (SF)
G. Jovanovic (YU)
B. Kaliventzeeff (B)
M. Lucet (F)
J. B. P. van Nuland (NL)
I. Pallai (H)
F. A. Perris (UK)
S. Pierucci (I)
J. Reyes-Vallejo (E)
D. W. T. Rippin (CH)
H. Schnitzer (A)
L. Slavicek (CZ)

Reply Form

Those interested in the Symposium are requested to complete the attached form and return it to the address indicated.

Call for Papers and Announcement

22 Symposium of the Working Party on Use of Computers in Chemical Engineering

COPE–91

449th Event of the European Federation of Chemical Engineering (EFChE)

Barcelona, Spain, 14-16 October 1991

European Symposium on Computer Applications in Chemical Engineering

COPE–91

This European Symposium on Computer Applications in Chemical Engineering is a continuation of the series of events initiated by the EFChE Working Party –Use of Computers in Chemical Engineering– of which the most recent ones were COM-CHEM'90 at The Hague, the Netherlands and CACHI'89 at Erlangen, FRG.

The Symposium is organized by

Sociedad Española de Química Industrial (SEQUI) in collaboration with;

Col·legi d'Enginyers Industrials de Catalunya

and Members of the Working Party on Use of Computers in Chemical Engineering of the European Federation of Chemical Engineering.

Scientific Programme

The subjects covered at this Symposium will focus on the development and use of computer applications in the following fields:

- **Artificial Intelligence in Chemical Engineering**
- **Flexibility and Uncertainty in Enginering Design**
- **Computer Integrated Process Engineering**
- **Reliability Engineering and Risk Assesment**
- **Education and Training in Computer Applications**

These topics will be treated in Plenary Lectures by invited speakers, oral presentations (about 40) and poster contributions and a round table discussion. About 30 minutes including discussion will be available for every oral contribution, while the time foreseen for the display of posters will be one day. The final decision on oral or poster presentation rests with the Scientific Symposium Committee.

Call for Papers

Authors wishing to present a contribution are asked to submit a text comprising Abstract (150 words), Scope and Conclusions and Significance of about 700 words in total.

Deadlines:

1 October 1990	Deadline for submission of abstracts;
1 January 1991	Information to authors about the acceptance of their contribution;
1 April 1991	Submission of manuscripts (maximum 6 pages, including tables, drawings, references) by ahthors, ready for offset printing;
1 July 1991	Information on final acceptance.

REPLY FORM

Mr./Mrs. ..... First name (s): ..... Family name: .....

Affiliation: .....

Mailing address: .....

Postal code and town: ..... Country: .....

☐ I wish to receive further information (Second Announcement: June 1991)
☐ I intend to participate in the Symposium
☐ I intend to submit an abstract before 1 October 1990 preferably as an oral/poster presentation on topic .....
☐ I am interested in special arrangements for accompanying persons
