

SPEED-WAYTM **Manways**

**Time is
money.**

Provide speedy access.

At last, a design that allows you to easily
add quick-opening manways without
replacing your existing trays.

That's the
SPEED-WAYTM **Manway!**

 **KOCH-GLITSCH**

SPEED-WAYTM Manways

At last, a design that will allow you to easily add quick opening manways to your existing trays. Just remove the existing manway panels, or active panels, and replace them with SPEED-WAY manways.

Quick-opening manways are especially beneficial when:

- ▶ Turnaround manpower is limited
- ▶ Short downtime is critical
- ▶ Routine inspections required

If you have a need to tunnel through your column on a routine basis SPEED-WAY manways are a must. The most exciting thing about this technology is that we can fit it to any tray design where you presently have manways.

SPEED-WAYTM Manway Features:

The features that makes this most appealing is that you can retro-fit existing trays without welding or any modifications to the adjacent panels. Simple replace the manway bolting device with the SPEED-WAY attachments and you are done. It's as quick and easy an install as the original manway. But from that point on you have the ability to tunnel, inspect and clean quickly during future turnarounds, saving more than 20% of the opening and closing process.
